Educational Philosophy and Objectives

The focus of the total educational program is driven by the Board's continuing vigilance in the area of educational beliefs. We strive to establish an education program for the district as a whole that will meet the needs of our students. To meet this goal, we recognize the following educational beliefs:

- Instruction must be relevant.
- Instructions must be based on high expectations
- The instructional climate must foster and encourage educational risk taking.
- Students have the right to a classroom environment conducive to learning.
- Instruction must address the diversity of our student and community population
- Instruction must meet students at their educational level and provide successes that will advance them.
- The school needs to provide frequent and consistent positive messages regarding each student's worth and ability to learn.
- Use of technological skills is essential
- All students should learn and practice the skills needed to work cooperatively.
- All students and staff must respect the physical, emotional, and intellectual well being of others.
- Education of the whole child is necessary.
- Students learn in a variety of ways. Good instruction should incorporate a variety of teaching methods to accommodate these styles.

In order for the Board to monitor whether the educational program is attaining these objectives and to be knowledgeable of current and future resource needs, the Superintendent shall prepare an annual report that includes:

1. A review and evaluation of the present curriculum.
2. A projection of curriculum and resource needs.
3. An evaluation of, and plan to eliminate, any bias in the curriculum or instructional materials and methods concerning the classifications referred to in policy 7:10, *Equal Education Opportunities*.
4. Any plan for new or revised instructional program implementation.
5. A review of present and future facility needs.

School Accountability

According to the Illinois General Assembly, the primary purpose of schooling is the transmission of knowledge and culture through which students learn in areas necessary to their continuing development and entry into the world of work. To fulfill that purpose, the Illinois State Board of Education prepared State Goals for Learning with accompanying Illinois Learning Standards and/or National Common Core Standards.

The Board of Education gives priority in the allocation of resources, including funds, time, personnel, and facilities, to fulfilling this purpose.

Quality Assurance

The Board continuously monitors student achievement and the quality of the District's work. The Superintendent shall supervise the following quality assurance components, in accordance with State law and Illinois State Board of Education (ISBE) rules, and continuously keep the Board informed:

1. Prepare each school's annual recognition application and quality assurance appraisal, whether internal or external, to assess each school's continuous school improvement.
2. Continuously assess the District's and each school's overall performance in terms of both academic success and equity. This includes, without limitation, a thorough analysis of ISBE's balanced accountability measure and each school's Multiple Measure Index and corresponding Annual Measurable Objective provided by ISBE.
3. If applicable, develop District and School Improvement Plans, present them for Board approval, and supervise their implementation.
4. Prepare a school report card, present it at a regular Board meeting, and disseminate it as provided in State law.
5. In accordance with Sec. 2-3.153 of the School Code, administer at least biennially a survey of learning conditions on the instructional environment within the school to, at minimum, students in grades 6 through 12 and teachers.

Education of Children with Disabilities

The School District shall provide a free appropriate public education in the least restrictive environment and necessary related services to all children with disabilities enrolled in the District, as required by the Individuals With Disabilities Education Act (IDEA) and implementing provisions of the School Code, Section 504 of the Rehabilitation Act of 1973, and the Americans With Disabilities Act. The term “children with disabilities,” as used in this policy, means children between ages 3 and 21 (inclusive) for whom it is determined, through definitions and procedures described in the Illinois State Board of Education’s *Special Education* rules, that special education services are needed.

It is the intent of the District to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated, and provided with appropriate educational services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act even though they do not require services pursuant to the IDEA.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in the Illinois State Board of Education’s *Special Education* rules. For those students who are not eligible for services under IDEA, but, because of disability as defined by Section 504 of the Rehabilitation Act of 1973, need or are believed to need special instruction or related services, the District shall establish and implement a system of procedural safeguards. The safeguards shall cover students’ identification, evaluation, and educational placement. This system shall include notice, an opportunity for the student’s parent(s)/guardian(s) to examine relevant records, an impartial hearing with opportunity for participation by the student’s parent(s)/guardian(s), representation by counsel, and a review procedure.

The District may maintain membership in one or more cooperative associations of school districts that shall assist the District in fulfilling its obligations to the District’s disabled students.

Extracurricular and Co-Curricular Activities

Extracurricular or co-curricular activities are school-sponsored programs for which some or all of the activities are outside the instructional day. They do not include field trips, homework, or occasional work required outside the school day for a scheduled class. "Co-curricular activity" refers to an activity associated with the curriculum in a regular classroom and is generally required for class credit. "Extracurricular activity" refers to an activity that is not part of the curriculum, is not graded, does not offer credit, and does not take place during classroom time; it includes competitive interscholastic activities and clubs.

The Superintendent must approve an activity in order for it to be considered a District-sponsored extracurricular or co-curricular activity, using the following criteria:

1. The activity will contribute to the leadership abilities, social well-being, self-realization, good citizenship, or general growth of student-participants.
2. Fees assessed students are reasonable and do not exceed the actual cost of operation.
3. The District has sufficient financial resources for the activity.
4. Requests from students.
5. The activity will be supervised by a school-approved sponsor.

Non-school sponsored student groups are governed by Board of Education policy, 7:330, *Student Use of Buildings - Equal Access*.

Academic Criteria for Participation

For students in kindergarten through 5th grade, selection of members or participants is at the discretion of the teachers, sponsors, or coaches, provided that the selection criteria conform to the District's policies. Students must satisfy all academic standards and must comply with the activity's rules and the student conduct code.

For junior high/middle school students, eligibility is based on cumulative quarter grades and is determine weekly (i.e. What would be the report card grade if given that day?) Student athletes must be passing all subjects. If a student athlete is found to be ineligible, that ineligibility begins the following Monday through Saturday.

- (1) During the first, second, and third week of ineligibility, student athletes may practice but cannot dress or travel with the team to an athletic contest. Between the third and fourth week, the student may not practice or participate.
- (2) After the fourth week of consecutive ineligibility, student athletes will be removed from the team.
- (3) A student with any failing grades must participate in a required Intervention program approved by the Coach and Assistant Principal. Student athletes who are ineligible are encouraged to seek help from coaches, teachers, and assistants.
- (4) Student who are ineligible for academic or code violations may not be in uniform in public during the period of ineligibility.

For high school students, all students must be enrolled in four (4) blocks. All students must pass three (3) blocks on a weekly check. Students not passing 3 blocks on a weekly basis: (1) will be ineligible to participate in interscholastic activities for the following week (Monday – Saturday); and (2) will be required to participate in a tutorial program approved by the coach and athletic director. Students ineligible for four consecutive weeks are dropped from the team. Eligibility is not cumulative season-to-season.

Students must also pass three blocks each term to be eligible to participate in the next term's activities. A minimum of two blocks must be taken at Galesburg High School. The equivalent of a three-semester hour college course may be substituted for a third and/or fourth block. The college course must be taken for high school credit and pre-approved by the high school administration. The course may be taken for a regular grade counted on the high school GPA, or pass/fail grade which does not count in the high school GPA. Students who do not pass three blocks for the fourth term may use summer school as an extension of the fourth term.

Sophomore, Junior, and Senior students must have a minimum GPA of 1.75 at the end of each term. Grades are cumulative during the grading period and are based on what grade a student would receive if transferring to another school. Students not having a 1.75 GPA will be ineligible for the next term, but may become eligible if the GPA is raised at midterm.

Sophomore, Junior, and Senior students must be on track for graduation at the beginning of each school year, as defined by the information in the student handbook.

Students not on track for graduation will become eligible during the school year if they achieve enough credits to be back on track for graduation. Seniors will be checked each term to determine if they are on track for graduation.

A student with any failing grades must participate in a required tutorial program approved by the coach and Athletic Director.

An athlete who is ineligible for three (3) consecutive weeks is also ineligible to practice in the following week. An athlete who is ineligible for a fourth consecutive week shall be dropped from the team.

The responsibility for counting credits, maintaining grade point average, meeting graduation requirements and all other eligibility requirements specifically outlined in the extracurricular code rests with the student and their parents/guardians.

Mission Statement

The mission of the Library Media Program is to create a student-centered library media center which provides a safe, nurturing environment in which students can successfully seek information and ideas for their educational, informational, and recreational needs. The library seeks to promote an appreciation of literature enabling students to interpret meaning from various forms of literature as they become lifelong readers and learners.

Further the library seeks to ensure that our students acquire the necessary information literacy skills they will need to become productive learners with skills and knowledge necessary to lead successful meaningful lives in the 21st century. This mission recognizes the essential role of the school library program in the educational process as students reach their full potential.

Program Goals

The Galesburg Community Unit District #205 K-12 Library Media Program is an integral part of the educational process. The primary objective of the library media program is to implement, enrich, and support the educational program of the school, by providing a wide range of materials on all levels of difficulty, with diversity of appeal and the presentation of different points of view.

To this end, the Board of Education of CUSD #205 reaffirms the objectives of the *Illinois School Library Media Program Guidelines* prepared by the Illinois School Library Media Association with the endorsement of the Illinois Association for Educational Communications and Technology, the Illinois State Board of Education and the Illinois State Library and asserts that it is the responsibility of the library's professional staff:

- To be integrated into the curriculum and central to the learning process.
- To provide a comfortable, inviting, and efficient facility that serves as the current information center for integrated, interdisciplinary, intra-grade and school-wide activities.
- To promote literacy and the enjoyment of reading, viewing, and listening by providing resources and experiences that contribute to lifelong learning.
- To provide leadership, instruction, and expertise in the use of information and instructional technologies that encourage users to become creators and discriminating consumers of information.
- To participate in partnerships/networks that enhance access to resources and learning opportunities outside the school.
- To foster intellectual freedom and provide physical access to information and ideas for a diverse community of learners.
- To coordinate the acquisition, utilization, and management of information sources and instructional technologies (i.e. computer, print, and non-print media) used within the building.

Responsibilities for Selection of Materials

The CUSD#205 Board of Education is legally responsible for all materials relating to the operation of the Galesburg Schools.

The responsibility for the selection of instructional materials is delegated to the professionally trained librarian/media specialists employed by the District who will coordinate the selection of instructional

materials and consider recommendations for purchase from administrators, teachers, staff members, and students.

Criteria for Selection

Needs of the school based on knowledge of the curriculum and of the existing collections are given first consideration.

Materials for purchase may be considered on the basis of: overall purpose, timeliness or permanence, importance of the subject matter, readability and popular appeal, currency, authoritativeness, reviews in professional journals, technical quality on non-book materials, format and price, reputation of the author, artist, composer, producer, etc.

Variety, balance, and ease of access are also considerations in the selection of materials.

Materials will be chosen in the format that best suits the needs of the libraries' patrons.

Requests from faculty, staff and students are given consideration if their requests meet other selection criteria.

Procedure for Selection and Deselection

Before selecting materials for purchase, the professional staff will evaluate the existing collection and determine its weaknesses and needs. Next, professional sources will be consulted. The librarian/media specialist may also consult specialists from any department or grade level for recommendations.

Gift materials shall be accepted or rejected by the criteria for selection.

Deselection is an ongoing process which includes the removal of obsolete, inappropriate, damaged or worn materials. Lost or damaged materials will be replaced when they are deemed necessary to the educational value of the collection.

Intellectual Freedom

The Galesburg CUSD #205 Board of Education subscribes in principle to the statements of policy on library philosophy as expressed in the American Library Association Library Bill of Rights. (Appendix A)

Challenged Materials

Occasional objections to a selection will be made by the public, despite the care taken to select valuable materials for student and teacher use and the qualifications of persons who select the materials.

In the event a person challenges a particular book or material, the following procedure shall be followed:

1. Be courteous, but make no commitments.
2. Refer the complainant to the Building Principal if they want to file a formal complaint.
3. The principal shall contact the complainant to discuss the complaint and attempt to resolve it informally by explaining the philosophy and goals of the school library program.
4. If not resolved informally, the complainant will be supplied a packet of materials consisting of the "Library Media Selection Policy," including a copy of the Request for Review form. (Appendix B)

5. If the Request for Review form is received, a committee will be appointed, by the Director of Curriculum/Instruction, to consider the complaint. The committee will consist of a professional librarian (from one of the other buildings in the district), an administrator, a teacher, a community member, a public librarian (if possible), and a high school student.
6. In accordance with the mission statement, no questioned materials shall be removed from the library pending a final decision. However, access to the questioned material can be denied to the student or parent(s) making the complaint.
7. The Review Committee will:
 - Examine the challenged resource and judge whether it conforms to the principles of selection outlined in the district's Library Media Selection Policy.
 - Determine professional acceptance by reading critical reviews of the resource.
 - Passages or parts should not be pulled out of context. The values and faults should be weighed against each other and the opinions based of the material as a whole.
 - Meet to discuss the resource and to prepare a report with a specific recommendation.
 - File a copy of the report with the building and district administration within 30 days of the date of the formal complaint.

High School Credit for Students in Grade 7 or 8

The Superintendent or designee may investigate, coordinate, and implement a program for students in grades 7 and 8 to enroll in a course required for a high school diploma.

If a program is available, students in grades 7 and 8 may enroll in a course required for a high school diploma when the course is offered by the high school that the elementary student would attend and either of the following is satisfied: (1) the student participates in the course at the high school and the elementary student's enrollment in the course would not prevent a high school student from being able to enroll, or (2) the student participates in the course where the student attends school as long as the course is taught by a teacher who holds a professional educator license with an endorsement for the grade level and content area of the course.

A student who successfully completes a course required for a high school diploma while in grades 7 and 8 shall receive academic credit for the course. That academic credit shall satisfy the requirements of Section 27-22 of the School Code for purposes of receiving a high school diploma, unless evidence about the course's rigor and content show that the course did not address the relevant Illinois learning standard at the level appropriate for the high school grade during which the course is usually taken.
